22/06/2011

Dear Mr Thompson,

Regarding your query of 22 June 2011 I would advise that I have checked the boundary map for North of Scotland as supplied by the Federation and it is as follows:-

From 990000 North to 770000 South (the entire length of map supplied) and East from 230000 to the coast.

I would also confirm that the grid references of the members you asked me to check, W & A Ross and K Pratt, are within the above boundary.

Yours sincerely

Mrs. Linda Brooks
